## "Hello" From the Chair

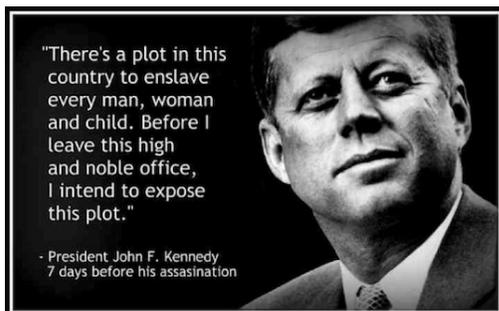

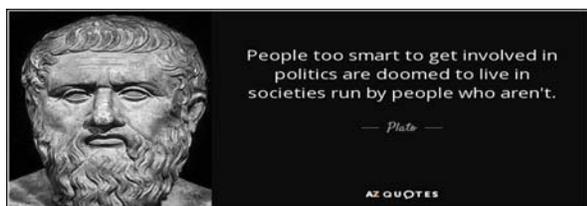

### The Primary is Often More Important Than the General Election

The Primary Election is often the most important election because the district is either very Republican or very Democratic. Once the candidate is chosen to run in the Primary Election they are a sure winner of the General Election.

Even The Free Press understands how important it is to get their vote out and is starting a campaign to boost voter turnout this Aug. (See link under What Say You) The Progressives know how to get their vote out and they are willing to work to accomplish it. Republicans and other conservatives need to take a look at this and learn to work at getting the votes out, that is if we want to 'Drain the Swamp' and keep our country going in the direction Trump has redirected us.

The time for excuses for not getting involved has run out. Please reach out to the candidate/s of your choice and see what you can do to help them.

'If not you, who? If not now, when?'

God bless and have a grand and glorious day.

Your friend and neighbor,

*Philia*

## WHAT SAY YOU

**10-5-1: A Free Press campaign to boost voter turnout this August**

<https://on.freep.com/2wjWKZQ>

**On page 2 you will see what the Free Press has laid out in order to get the vote out. We should adopt their plan to be sure that we win the primary and general elections!**

**Below is exactly why our Founding Fathers set up the Electoral College to elect the President.**

### ELECTORAL EXPLANATION

There are 3,141 counties in the United State  
Trump won 3,084 of them.  
Clinton won 57.  
There are 62 counties in New York State.  
Trump won 46 of them.  
Clinton won 16.  
Clinton won the popular vote by approx. 1.5 million votes.  
In the 5 counties that encompass NYC, (Bronx, Brooklyn, Manhattan, Richmond & Queens) Clinton received well over 2 million more votes than Trump. (Clinton only won 4 of these counties, Trump won Richmond)  
Therefore these 5 counties alone, more than accounted for Clinton winning the popular vote of the entire country.  
These 5 counties comprise 319 square miles.  
The United States is comprised of 3, 797,000 square miles.  
When you have a country that encompasses almost 4 million square miles of territory, it would be ludicrous to even suggest that the vote of those that encompass a mere 319 square miles should dictate the outcome of a national election.

## "Heroes" Corner

### Joseph Castiglia

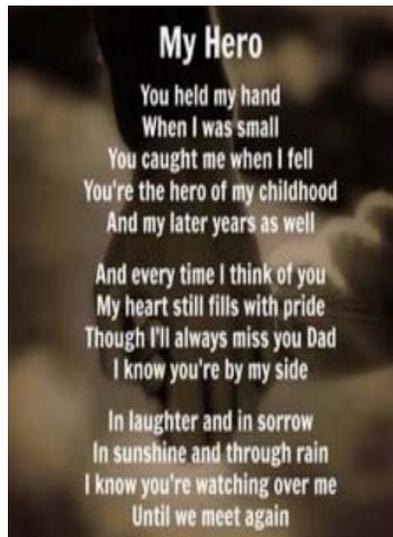

Joseph Castiglia, sang the National anthem a cappella at the event where President Trump spoke in Washington Twp. He graduated last year from De LaSalle Summa Cum Laude, Phi Beta Kappa, National Honor Society. He currently is a Bio Major at Wayne State University

It is so wonderful that young people are getting involved in singing and other activities related to politics in our county. As you can see they are intellectually bright and good looking. They can see the importance of standing behind those that are voting the way that they want them to.

Thanks so much Joseph for getting involved. Keep up the good work! God bless you.

### 10-5-1: A Free Press campaign to boost voter turnout this August Lets use it for the Republican Advantage

If you think representative government is something worth saving and strengthening, we're asking each of you to take the 10-5-1 pledge:

**By July 1:** Send emails or postcards to 10 family members, friends, or acquaintances you suspect aren't planning to vote in the primary election, inviting them to join you at the polls Aug. 7.

**By Aug. 1:** Have phone or face-to-face conversations with at least 5 of those you contacted, renewing your invitation to vote.

**On or before Aug. 7:** Take one of the people you contacted with you when you go to cast your own vote or absentee ballot.

Between now and Aug. 7, the Free Press will provide information to make your recruiting efforts more effective and your vote better informed:

- We'll suggest ways to approach fair-weather voters in your circle, explain how they can find out whether they're registered to vote and how to register if they're not.
- We'll provide detailed information about the most important races, focusing on those in which the primary victor is all but certain to win the November general election.
- We'll highlight what other groups are doing to register, engage and mobilize primary voters, calling attention to special events for those planning to participate in the primary.
- We'll provide tools to assist readers in recruiting friends and family members for the big vote.

And maybe, after the primary ballots are counted August 7, we'll awake to something that looks less like a failed experiment in self-governance and more like the sort of representative democracy our state can take pride in.
